Progusta PA
Potassium acetate food grade

Progusta PA potassium acetate is supplied as a non-dusty and easy soluble agglomerate.

**PRODUCT PROPERTIES**

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>Potassium acetate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Formula</td>
<td>( \text{CH}_3\text{CO}_2\text{K} )</td>
</tr>
<tr>
<td>Product form</td>
<td>White agglomerate</td>
</tr>
<tr>
<td>Molecular weight</td>
<td>98.14 g/mol</td>
</tr>
<tr>
<td>CAS No.</td>
<td>127-08-2</td>
</tr>
<tr>
<td>EINECS No.</td>
<td>204-822-2</td>
</tr>
<tr>
<td>HS-code EU</td>
<td>2915.29.00</td>
</tr>
<tr>
<td>HS-code US</td>
<td>2915.29.5000</td>

</table>

**Applications**

**Acidity regulator**
Potassium acetate can be used in combination with acetic acid to create a pH buffering systems in food. It can also be used in low sodium recipes as a replacement for sodium acetate. Due to its dry form, potassium acetate can be applied either in dry or liquid pre-blends or directly to the final food product.

**Preservation**
Acetates are known to be good preservatives and for that reason Potassium acetate can be used in processed meat products and ready-to-eat meals to control microbiological growth and to reduce sodium by replacing sodium acetate.

**Flavoring agent**
Potassium acetate can be used as a flavoring agent to impart a mild vinegar taste to food products, for example potato crisps, other snacks or potato salads. Potassium acetate can be used as a sodium free alternative of sodium acetate.

In all cases, it is advisable to carry out an initial test, in order to determine the precise organoleptic and physical effects of the added potassium acetate.

**Legislation**
Progusta PA is an approved food additive according to EU and FDA legislation and JECFA (FAO/WHO). Please check local legislation for the exact dosage levels and allowed applications.

**Stability**
Progusta PA is stable for 2 years from date of production. Physical stability and appearance can change before the end of shelf-life if the product is not stored in closed original packing, kept dry and at room temperature or if the pallets are stacked.

**Warranty.** This information herein is offered as a guide and is believed to be accurate and reliable as of the date of the printing. The values given are not to be considered as a warranty and they are subject to change without prior notice. Handling
Progusta PA has no classification. Always check the Safety Data Sheet and label before using this product.

Packaging
Progusta PA agglomerate grade available in 25kg polyethylene lined paper bags.

Safety precautions
Please see the Safety Data Sheet before handling the material.

This product is produced in the Netherlands.
