

Sodium Propionate

Description

Sodium Propionate is available as a white non-dusty, free-flowing powder.

PRODUCT PROPERTIES

Product name	Sodium Propionate
Formula	CH ₃ CH ₂ COONa
Molecular weight	96.06 g/mol
CAS No.	137-40-6
EINECS No.	2052904
HS code US	2915.50.5000
HS code EU	2915.50.00

Product grades

Sodium Propionate is available in pharmaceutical grade and complies to the test methods in the monograph of European Pharmacopeia.

Application

Pharmaceutical grade Sodium Propionate can be used in veterinary medical products. Sodium Propionate is used as a disinfectant, as an antifungal, ophthalmic or antiseptic agent.

Stability

Sodium Propionate is stable for 3 years from date of production. Physical stability and appearance may change before the end of shelf-life if not stored single-stacked in closed original packaging, dry and at room temperature.

Handling

Product has no classification. Always check the Safety Data Sheet and label before using the product.

Packaging

Sodium Propionate powder is packed in 20 kg polyethylene lined paper bags.

Safety precautions

Please see the Safety Data Sheet before handling the material.

Warranty. This information herein is offered as a guide and is believed to be accurate and reliable as of the date of the printing. The values given are not to be considered as a warranty and they are subject to change without prior notice.
