

# CALPRONA CA

## Calcium Acetate Feed Grade

| SPECIFICATIONS                          | CONTROL LIMITS                     |
|---|------------------------------------|
| Appearance                              | White/off-white granules or powder |
| Assay calcium acetate on dried material | ≥ 98.0 % mass                      |
| Water                                   | ≤ 6.0 % mass                       |
| pH (1% solution)                        | 7.0 – 10.0                         |
| Iron (Fe)                               | ≤ 50 ppm                           |
| Fluoride (F)                            | ≤ 40 ppm                           |
| Arsenic (As)                            | ≤ 2 ppm                            |
| Cadmium (Cd)                            | ≤ 2 ppm                            |
| Lead (Pb)                               | ≤ 2 ppm                            |
| Mercury (Hg)                            | ≤ 0.1 ppm                          |
| Heavy metals (as Pb)                    | ≤ 10 ppm                           |
| Dioxine & Dioxine-like PCB's            | Conform*                           |

This product is produced in the Netherlands.

\* Conform Directive 2002/32/EC on undesirable substances in animal feed.

Calprona CA is GMP+ FSA assured. Calcium acetate is listed in the European Union Register of Feed Additives as E263 pursuant to Regulation (EC) No 1831/2003.
