

Calcium Acetate

Description

Calcium Acetate is available as white powder or agglomerate. These two versions are chemically identical and differ only in physical form. The agglomerate offers the properties on non-dustiness, improved wettability, higher reactivity, higher bulk density and improved free-flowability.

PRODUCT PROPERTIES

| | |
|-----------------------------|--|
| Product name | Calcium Acetate |
| Formula | $(\text{CH}_3\text{COO})_2\text{Ca} \times \text{H}_2\text{O}$ where x is ≤ 0.5 |
| Molecular weight(anhydrous) | 158.17 g/mol |
| CAS No. | 62-54-4 |
| EINECS No. | 2005409 |
| HS code US | 2915.29.5000 |
| HS code EU | 2915.29.00 |
| Solubility in water | |
| at 0°C | 37.4 g/100 ml |
| at 25°C | 35.3 g/100 ml |
| at 100°C | 29.7 g/100 ml |

Product grades

Calcium Acetate is available in pharmaceutical and in industrial grade.

Application

Pharmaceutical grade Calcium Acetate can be used as a phosphate binder to treat Hyperphosphatemia (elevated blood phosphorus levels), as well as in laboratory

Warranty. This information herein is offered as a guide and is believed to be accurate and reliable as of the date of the printing. The values given are not to be considered as a warranty and they are subject to change without prior notice. reagents and in the production of anti-epileptic drugs. The product is FDA listed (DMF # 18997).

Industrial grade Calcium Acetate is used in the production of lubricants, carbon black and resins for printing ink, in calcium soap manufacture, as a gelling agent, in water treatment, as a concrete accelerator and as a PVC foam blowing agent. The product is also used in fertilizers as a calcium source with a calcium (Ca) level of minimum 23.8% (33.4% expressed as CaO).

Stability

Pharmaceutical grade Calcium Acetate is stable for 3 years from date of production. All other grades have 2 years stability. Physical stability and appearance may change before the end of shelf-life if not stored single-stacked in closed original packaging, dry and at room temperature.

Handling

Product has no classification. Always check the Safety Data Sheet and label before using the product.

Packaging

Depending on product form in 20 or 25 kg polyethylene lined paper bags.

Safety precautions

Please see the Safety Data Sheet before handling the material.
