

Sodium Diacetate

Description

Sodium Diacetate is available as a free flowing white crystal, containing approximately equimolar amounts of Sodium Acetate and acetic acid.

PRODUCT PROPERTIES

Product name	Sodium Diacetate
Formula	CH ₃ COONaCH ₃ COOH
Molecular weight	142.08 g/mol
CAS No.	126-96-5
EINECS No.	2048149
HS code US	2915.29.5000
HS code EU	2915.29.00

Product grades

Sodium Diacetate has a free acetic acid content of 40% - 43%.

Application

Sodium Diacetate is used in haemodialysis. The product is also used in other applications where it is advantageous to use a solid source of free acetic acid, e.g. for safer handling and reduced transportation costs.

Stability

Sodium Diacetate is stable for 3 years from date of production. Physical stability and appearance may change before the end of shelf-life if not stored single-stacked in closed original packaging, dry and at room temperature.

Handling

Product is classified as irritant. Always check the Safety Data Sheet and label before using the product.

Packaging

Sodium Diacetate crystal is packed in 25 kg polyethylene lined paper bags or 900 kg big bags.

Safety precautions

Please see the Safety Data Sheet before handling the material.

Warranty. This information herein is offered as a guide and is believed to be accurate and reliable as of the date of the printing. The values given are not to be considered as a warranty and they are subject to change without prior notice.
